Location of activity:

Long Term Care Facility

Length of activity in hours:

35 hours

Start date:

Mon. Dec. 6/04

Leader:

Ms. D. Green M.R.T.(R.) charge
Technologist

Topic:

Care and special needs of the geriatric patient

Please describe the content:

Communication with geriatric patients
 Responding to their special needs
 Positioning tips for radiographic procedures
 for geriatric patients

How has it helped you on the job:

The time spent doing portables and assisting with cases in the medical imaging dept helped me to develop unique positioning skills specific to geriatric patients. I will take this new knowledge back to my dept. and share these techniques with my colleagues.
