# Code of Ethics for Members of the College of Medical Radiation Technologists of Ontario

## INTRODUCTION

The Code of Ethics is a set of principles that delineates responsible conduct and the ethical and moral behaviour of members of the College of Medical Radiation Technologists of Ontario (CMRTO or the “College”). It has as its foremost goal the welfare and protection of patients and the public.

The Code of Ethics provides direction and guidance for all members of the College in the province of Ontario.

In the Code of Ethics, “members” refers to all members of the CMRTO; that is, members in all of the five specialties: radiography, radiation therapy, nuclear medicine, magnetic resonance and diagnostic medical sonography. In the Code of Ethics, “profession” refers to the profession of medical radiation technology which includes all of the five specialties: radiography, radiation therapy, nuclear medicine, magnetic resonance and diagnostic medical sonography.

The Code of Ethics shall serve as a guide by which members may evaluate their professional conduct as it relates to patients, health care consumers, employers, colleagues and other members of the health care team. It is meant to serve not only members who provide clinical services, but also managers and educators who may be called upon to make judgments about ethical issues. It will also serve College Committees that may be called upon to make judgments about ethical issues in determining professional misconduct, incompetence or incapacity.

The Code of Ethics is intended to help members choose the right, fair, good and just action. Each member is personally responsible for behaving according to the ethical principles set down in the Code.

The consideration of ethical issues is an essential component of providing service. The Code of Ethics is to be used in conjunction with the College’s Standards of Practice. Together, these documents provide a model for ensuring safe, effective and ethical professional performance to ensure safe, effective and ethical outcomes for patients.

## ETHICAL PRINCIPLES

### 1. Responsibility to the Public

**Members act to ensure the trust and respect of the public by:**

#### INDICATORS

- a. maintaining high standards of professional conduct, competence and appearance
- b. providing only those services for which they are qualified by education, training or experience
- c. not making false, misleading or deceptive statements, orally or in writing
- d. advancing and supporting health promotion and research

### 2. Responsibility to Patients

**Members act in the best interests of their patients by:**

#### INDICATORS

- a. upholding the principle of informed consent including the right of the patient, or the patient's substitute decision maker, to refuse service
- b. respecting the dignity, privacy and autonomy of their patients
- c. maintaining clear and appropriate professional boundaries in the MRT – patient relationship
- d. treating all patients equitably, regardless of race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, gender identity, gender expression, age, marital status, family status, disability or type of illness
- e. providing individualized, comprehensive and safe treatment during examinations or therapy sessions, taking into account the patient's particular physical and emotional needs, values and cultural background
- f. preserving and protecting the confidentiality of information acquired through professional contact with the patient, except to facilitate diagnosis or treatment of the patient, or when legally obliged or allowed to disclose such information

### 3. Responsibility to the Profession

**Members promote excellence in the profession by:**

#### INDICATORS

- a. assisting each other and the CMRTO in upholding the spirit and the letter of the law, the *Regulated Health Professions and Medical Radiation Technology Acts*, their respective regulations and the standards of practice set by the CMRTO
- b. contributing to the development of the art and science of the profession through continuing education and research
- c. conducting all professional activities, programs and relations honestly and responsibly, and by avoiding any actions that might discredit the profession

### 4. Responsibility to colleagues and other health professionals

**Members develop and maintain positive, collaborative relationships with colleagues and other health professionals by:**

#### INDICATORS

- a. consulting with, referring to and co-operating with other professionals to the extent needed to serve the best interests of their patients
- b. ensuring the safety of other health professionals when in practice or in areas under the members responsibility
- c. educating colleagues and other health professionals about practices and procedures relating to the profession

### 5. Personal Responsibility

**Members are accountable for all of their professional undertakings and shall:**

#### INDICATORS

- a. aspire to a high level of professional efficacy at all times
- b. maintain and apply current and relevant scientific and professional knowledge and skill in every aspect of practice
- c. avoid conflict of interest
- d. provide professional service only when free from the influence of alcohol, drugs or other substances or any condition that might impede the delivery of safe service
